

PRAESIDIUM BACKGROUND SCREENING FOR GREEK ORTHODOX CHURCHES

Your first line of defense against sexual offenders is to keep them out of your church. Deciding who has access to the children in your care is one of the most serious decisions you make.

Praesidium's background screening services help ensure your staff and volunteers haven't been convicted of a crime and are who they claim to be. Industry best practices recommend that organizations check backgrounds of any employee or volunteer, including parents, who will work closely with children or youth on a regular basis.
